WEBER SP. Z O.O.

<http://www.weber-mining.pl>

Bilateral Meetings

- Tuesday (13:00 - 16:00)

Description

Weber Mining is an international company that has been in existence for 70 years and has been operating all over the world. Weber mining produces special foams and adhesives in mining, as well as injection machines for these products. These products are used to consolidate rock masses, solve water and air problems in mining areas.
